The project

E4NEETS project will develop training tools for professionals working with young adults considered as “NEETs” (Not in Employment, Education or Training). The objective is to strengthen the skills of these professionals so they can better inform and guide youth towards business creation, especially social and green entrepreneurship.

Project goals

- Develop a culture of social and green entrepreneurship among structures working with NEETs.
- Strengthen the skills of professionals supporting NEETs.
- Help the professional integration of young NEETs.

AVITEM's role

- Design an ecosystem mapping of entrepreneurship stakeholders.
- Create a pedagogical booklet to promote activities developed during the project.
- Disseminate project results.
