

# SETE

## Drought and Territory (*Sécheresse et Territoire*)

Programme  
ALCOTRA

Period  
10.2023 → 08.2026

Budget  
2 795 551 €

### The project

SETE aims at mitigating the impact of drought-related risks in internal and suburban areas of the Italian French cross-border territory. A cross-border action plan will be elaborated and nature-based solutions will be tested on pilot sites: Cuneo, the Aosta Valley, Imperia, Alpes-Maritimes, Alpes-de-Haute-Provence.

### Project goals

- Enhance knowledge of the cross-border region on the topic of water.
- Identify actions and solutions to mitigate the risks of drought.
- Raise awareness among technicians, administrators and citizens on the issue of drought.
- Test solutions in the various partner regions.

### AVITEM's role

- Coordinate communication and dissemination activities.
- Coordinate events to raise awareness in in the pilot territories as well as the final event in the Province of Imperia.
